

# FastTrack Program

Our **FastTrack program** consists of three 2 hour sessions normally conducted over a three week period to complete the DMV six hour requirement. Sessions can be scheduled more frequently if desired. This program does not contain many of the training advantages that our five session regular program features.

It is a contracted **\$275 program** minus any discount coupons  
**If you don't have a discount coupon? Rajan will give you one!**

Payment in full is required at the first session.

Our FastTrack instructor is Rajan Gupta. Mr. Gupta is a patient, experienced, and well qualified instructor. You can expect the highest standard of training.

The following list of fees, charges, and restrictions are unannounced but used by most driving schools. None of these apply to our regular five session program: If you would like to add the DMV road test it is an additional \$120. There is a \$25 fee for a student no shows for a scheduled appointment or for any cancellation made with less than 24 hours notice. Refunds to cancel the contract are made at the rate of \$60 per unused session. There may possibly be another student in the vehicle. This program is economical two hour sessions and it is used by most driving schools because two hours is the maximum time a driving school is allowed to drive a student in any 24 hour period. It is not done for traing value and does not contain the training advantages of our five session program.
